dedication

The infinite small cycles, made of a conglomeration that forms a complete idea there-in the cycle, incessantly building ever greater cycles that impinge upon the conical unknown — advancing our culture towards the ultimate: The apex of our cone.

In dedication —

To the enhancers of a better humanity.

foreword . . .

Long before the events which you are about to see ever happened, this college year was being shaped. Phone calls, letters, meetings, a few pencil scratches on blue-blocked paper — this was the beginning.

In March '52 the Freshman Advisory Council was making plans for September. When June came students moved out and construction companies moved in. All through the summer they ground out additions and corrections to the campus minutes. Construction was going on in other fields, too.

Assuming that student life would proceed more smoothly and effectively if organization leaders really understood their duties, a group met to consider these problems. Results — Leadership Workshop. And with sheets of graph paper and cups of coffee this Yearbook layout struggled into shape.

Now all plans are passed. September is here. The days, nights, classes, and activities unroll. Just turn the page and . . .

go forward.

"We're here! But now that we're here,
where are we?"

Up the endless stairs, unpack and unload
the paraphanellia that customs decree neces-
sary for dormitory living. Introductions and
strangers to match the stairs, innumerable.

Then first taste of college food and settle
down to get acquainted with the roommate
—or maybe plural.

The bells announce the morning and call
us to the breakfast line. Midmorning we
look at the first in the battery of tests — al-
most expect to be sworn in at the end on
Saturday.

Now we know where we are. The strangers aren't strangers any more. The abundance of steps are an advantage — more privacy they say. Nights are filled with entertainment — the barn dance, a series of parties, and the bonfire.

We explored our resources in the talent show and someone else's in the movie.

Really we didn't do too badly in those tests, or for that matter, in our entire orientation ordeal.

INTERNATIONAL
TIME RECORDING CO.

conferences, registration

In order to attend college classes one must register. This registration involves countless forms to be filled out, pens that run out of ink, closed classes, and general hysteria. The prize of the day — a set of coveted class cards.

For the benefit of the student leaders on campus, the first Leadership Workshop Conference convened in September. Results of the meeting are evidenced in the acquaintance of the officers with their fellow workers and their duties. As a helpful product of the project, came the manual for student leaders.

... *between classes*

Ten minutes to go between classes . . . time for a cigarette or a coke in the alcove . . . return the book to the library . . . time, too, to hand in an absence slip at the registrar's office or drop notices in the mailbox . . . then stop to read the bulletin board . . . with an hour to kill the snack bar offers refreshment and conversation or read tomorrow's assignment . . . might get in a fast game of ping pong . . . as a last resort there's always somebody to talk to.

... after classes

"Order please." "Just a minute, point of order." An impatient tapping of a pencil — all characterize a session of the Student Council.

Day by day, through the year legislative groups propose and put into action various measures for the benefit of the student body.

Through faculty-student committees both faculty and students contribute in the formation of general policy. Projects, once bull session material, receive the first push towards reality through one of these groups.

While student government business is being carried on the administration is also hard at work formulating policies, determining practices, and conducting general administratorial transactions.

This is it — the Class of '54 working under the philosophy of instilling school spirit and creating a keen sense of friendly competition. To achieve these goals the Juniors presented a musical assembly "This Is It", with Deloris Owings as director.

class of '54

class of '55

Emphasizing simplicity and sophistication through "The Crystal Cotillion" the class keynotes their activities.

"The Red Devil Takes a Holiday" turning into **Deep Purple** to provide the Sophomore class with two main features of their college year.

By winning the Women's Demonstration trophy they mark up the third of triple events.

class of '56

"Out of the Blue" comes the Class of '56 to present their assembly by the same name. Although not following the same color scheme, the Freshmen venture entertainment with the "Postel Premiere."

B - Tower Light

"Extra! Extra! Read all about it in the **Tower Light**." Issued bi-monthly "The Light" covers all campus affairs past, present, and future.

Garnering desirable literary work submitted by students and faculty, **The Publication** publishes a fall and spring edition. This organ of creative expression had its beginning just a year ago.

Pictorially recording college events the **Tower Echoes** reviews the year's activities.

canterbury club

M. Bower

L. Walke

newman club

From the sponsoring of caroling through Towson at Christmas time to participation in regional conventions, the religious organizations on campus carry on varied programs. For the needs of Catholic students there is the Newman Club; for Lutherans, the Lutheran Student Association; for Episcopalians, the Canterbury Club. An interdenominational, and one of the oldest and most active groups is the Student Christian Association. The youngest, the Inter-Varsity group.

bowling

Whether it's just for fun or for a berth on the Collegiate Telegraphic Tournament standings, Towsonites make their way to Stoneleigh every week to enjoy their two games of bowling. State Teachers again cops first place in the telegraphic league with many of its gals taking honors as high scorers.

cross - country

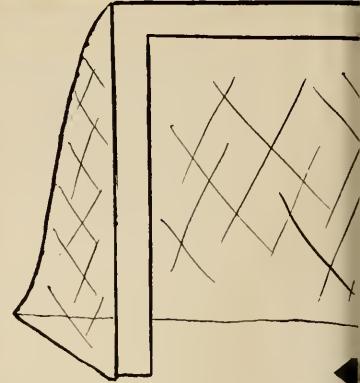

As in the past three years, Towson's Cross-country team was undefeated in dual competition.

In open meets, Towson's thinclads won over sixteen medals and distinguished themselves in three AAU meets and in the Mason Dixon meet. Besides their dual meet victories, they captured third place in the Mason Dixon encounter.

Their success must be attributed to the coaching of Don Minnegan and outstanding performances by Keith Wilson, Ken Wray, Fred Dahler, Nick Brandjes, Mel Sabaleski, and Jack Hogsten.

Layton Stamper, Bob Brooks, Bill Sandomen, Bob Kane and Bill Miller round out the squad.

| Baltimore U. | | 2 | 0 |

An analysis of the 1952 soccer season shows Towson overcoming three major handicaps to sweep to a highly successful season. As the year opened, Coach Don Minnegan found that he had lost nine key players from the '51 squad. A short training schedule, coupled with a shorter season of higher competition further darkened prospects. However, rated as being lucky to win but one game the Knights lost but three of eight contests.

The Knights lineup found five freshmen making the squad, and two veterans, Jim Gede and Jack Zimmerman, being voted by coaches as All-American prospects in every game they played. Other veterans playing outstanding ball were Al Pomeroy, John Baumer, Joe Beaver, Tom Cripps, and Bill Groth.

her majesty – Pegge I
and her court

Towson's campus welcomes the alumni while Pegge Whiteleather reigns as Pegge I, our first Homecoming queen.

Parades, a brass band, and elaborate decorations add zest to the day's festivities. The West Dorm with its athletic motif cops first prize for decorations.

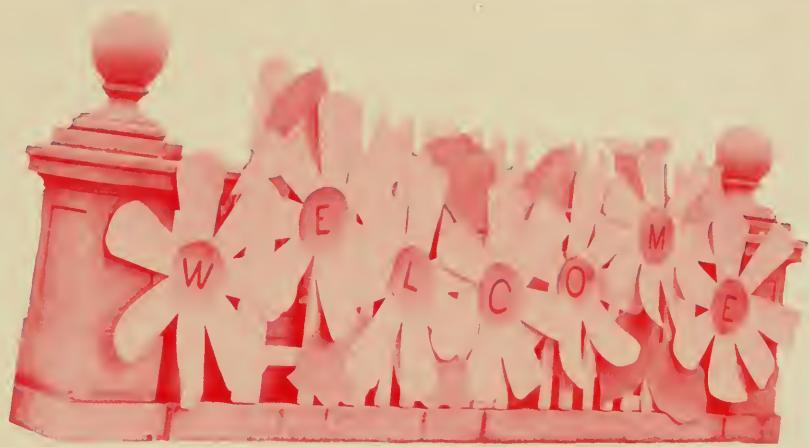

The Golden Knights dress in full armor to beat Loyola's soccer men, 5-3.

Antigone, a Glen Poyer production, provides evening entertainment.

homecoming

construction

Plans for renovations and additions to the campus have been in the background for two years but in the summer of 1952 large scale construction finally began. The completion of the men's dorms occurred and work began on the cafeteria and student union. The kitchen is to move upstairs to make room for student offices, lounge, and snack-bar. Besides the building and renovating, construction began on parking lots and a new lighting system brightens our campus.

... when winter came

basketball

Winning 4 games while losing 19, Towson's basketball record is not too impressive. It is evident that the fault is lack of experience and depth. This, plus the lack of any seasoned big men, accounts for the poor record. What the team lacks in prowess, however, is made up by spirit and fight.

Since losing the services of the high scorer, Bill Binder, the squad is not maintaining the standards they set. After the loss of Binder, Jack Downs, greatly improved, is coming through and playing excellent ball while taking over the scoring burden.

Ably supporting Jack are Frank Lastner, Jim Spitznas, Bob Krabbe, and Dave Yingling plus several other stalwarts.

However, the Mason Dixon provides too much opposition for our Knights, and in the last stages of the season, Coach Earl Killian decided to play the freshman squad with hopes of seasoning them for next year.

L. Martin

cheerleaders

"Louder, let's hear you, Let's really support our team" — yell the appropriately boisterous cheerleaders who whip up team support by means of bon fires, pep rallies, and organized cheering at athletic contests.

indoor track

Towson's indoor track team is posting the best record they have had in the past four years.

The mile relay team takes third place in the tough Washington Star games and comes back for a second place in Fifth Regiment games in Baltimore.

Jim Gede, Don Willem, Claude McNair, Keith Wilson, and Ken Wray comprise the successful medley relay team. In all, over twenty men are participating in this fast growing sport at Towson.

wrestling

Winning one dual match is not disappointing considering the powerful opponents our wrestling team faces this season.

The bright spots of the year are Gene Spurrier's winning of the 123 lb. championship in the Mason Dixon Tournament and Walter Weber's second place in the 137 lb. class. Gene's championship is for the second straight year.

Recognition is also given to Loyton Stamper who is performing so creditably for the Knights.

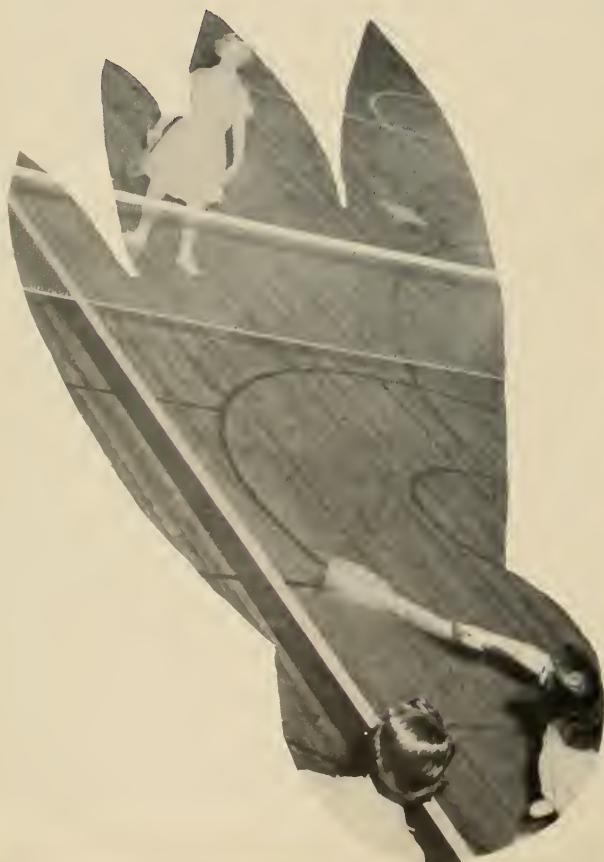

Not all of the basketball glory is captured by the Towson varsity and jayvee clubs. The winter sees no less than six teams entering in the Intra-mural program, with the balance of power centering in three strong clubs. Season winners are "The Five" who finishes the campaign with a perfect record of six wins and no losses. Running a close second are the Faculty and the Wonders quintets, both of whom lost but one contest. Highlights of the seasons activity are the Faculty games. With such "players" as Dr. Hartley, Dr. McCleary, and Mr. Abendroth, much color, (entertainment) is afforded the spectators.

badminton

basketball

Winter sports for the lassies centers around badminton, basketball, bowling, and modern dance. Those participating in the electives also compete with other colleges in play days winning many laurels for S.T.C.

There is something magic about the word "Christmas" for practically all of us. It is the day that somehow seems different from any other day in the year. It is the day towards which more people look forward with anticipation than any other, and it is a day when, if ever, people forget their animosities and bitterness, at least for a time . . . It is a day on which people have a chance to become really big in their outlook toward their fellow human beings.

And why? Behind all the fever and excitement, behind all the tinsel and decorations, behind all the work and rush, behind all the obligations and expense . . . behind all these there is the simple magnetic idea that for millions of people in the world this day is celebrated as the day when the Lord of the universe gave to this earth of ours the most wonderful Gift that was ever given at any time. Added to this there is the universal human interest of a baby, of the gifts and the carols, and the thousand and one ways that people remember one another. Admit the commercialism; admit the fact that many gifts are given out of obligation; admit that sometimes the amount of work involved almost takes the joy out of the day. Admit all of this, and Christmas is still one of wonder.

Above all, Christmas is the time of giving. There is yet magic in the fact that it is more blessed to give than to receive. Christmas will be a happier day for all of us if each one has fulfilled his opportunity to remember people to whom we owe a debt of gratitude or service; to give to some one from whom we expect nothing — except the smile and the surprised look of genuine appreciation. He may be a child in our neighborhood; he may be an older person who is lonely; it may be an employee, the postman, the milkman, the paper boy. It isn't the amount, it is the thoughtfulness and the consideration. Merry Christmas everyone!

by Dr. Earle T. Hawkins

Converting the gymnasium into a forest of enchantment with evergreens the Class of '54 set the pace for the holiday festivities with the "Crystal Cotillion." Decorating the dorms, Christmas dinner, carolling, and entertaining the orphans at the party add to the fun and frolic of the season.

this way please

the man who came to dinner

The conspiracy of George S. Kaufman and Moss Hart which produced Sheridan Whiteside, a world-renowned radio commentator and stage critique, is exposed in the most exquisite manner by the Glen Players.

sweetheart dance

Lace hearts, flowers, and music by Charlie Barnett honors Kitty Bean and Jules de Fries as Sweethearts of '53. The Student Government Association, sponsor of the dance, sets a precedent by obtaining a name band and by holding the dance at the Keith's ballroom.

...then spring arrived

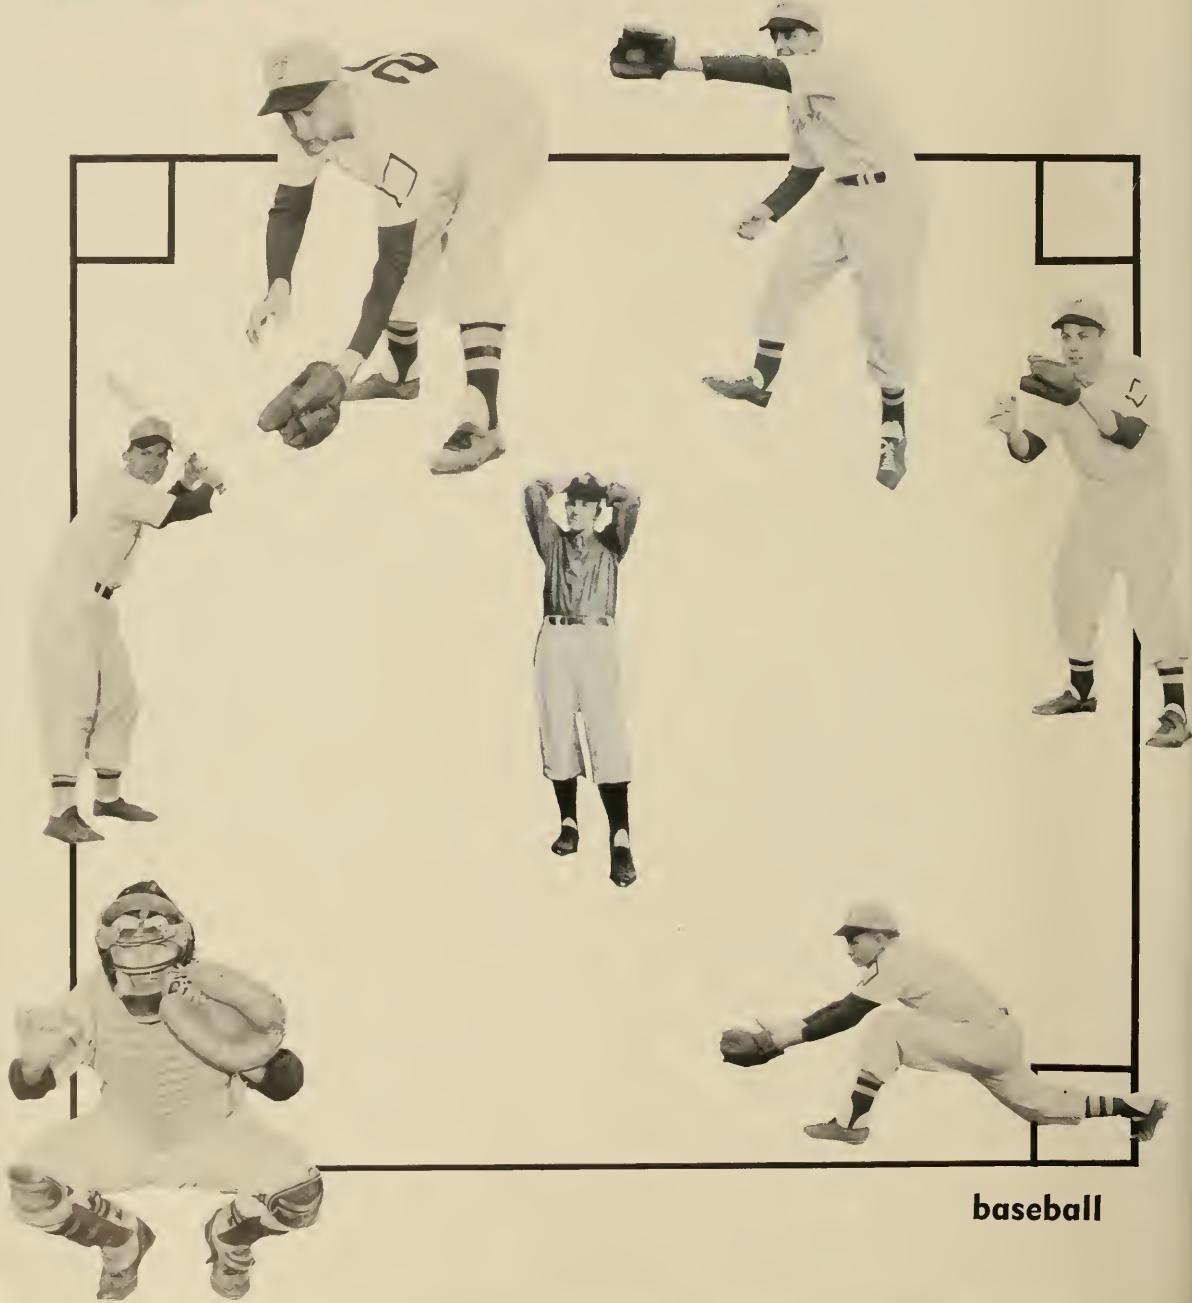

Though starting out with a crop of inexperienced players, the baseball squad comes through creditably. Against such powerful opponents as Maine and Colby, the team posts a 5 and 8 record.

The starting team, at times, consisted of as many as 6 frosh, with the only senior being veteran Jim Wirth.

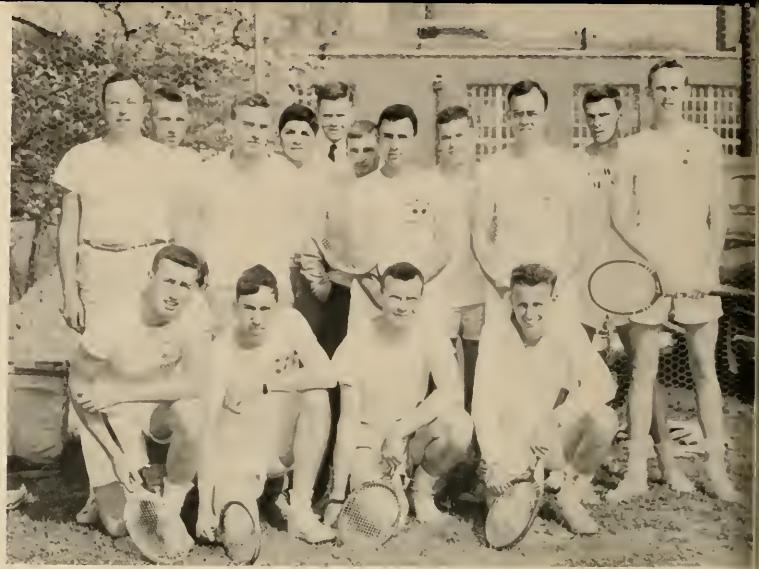

Ably manning the pitching staff were Tom Cripps, Max Friesland, and Vince Salkoski.

Cripps, besides being a mainstay on the pitching staff, also is one of the team's top hitters. He came in second in the batting race to Russ (Red) Reider, the number one slugger. Bringing up third place is burly Jack Harron.

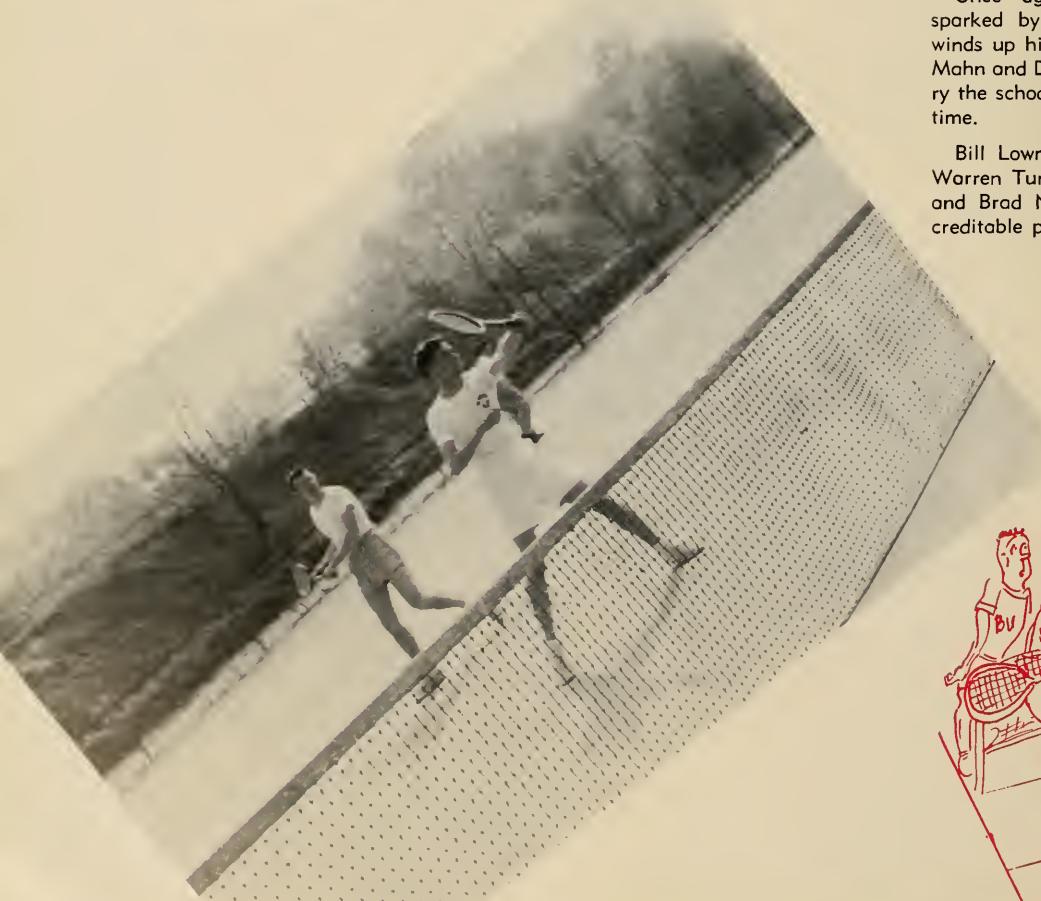

tennis

Towson enjoyed one of the best tennis seasons in several years, placing third in the Northern Division of the M-D conference.

Once again, the team is sparked by Jack Downs, who winds up his tennis career. Stu Mahn and Don Causey also carry the school colors for the last time.

Bill Lowman, Jack Jedlicka, Warren Turner, Dave DeGroft and Brad Nelson also turn in creditable performances.

This year, Towsonites saw in action the best track & field squad in the college's history.

Victorious in 2 of 3 dual meets, the team also placed in both the Catholic University and Baltimore Relay Meets.

Producing outstanding performances are Boyd Michaels, Ken Wray and Keith Wilson. Particular laurels are awarded to Jim Gede, sparkplug of the team for 4 years. Versatile Jim rates as the finest track man Towson has had.

track and field

spring electives

student teaching

Day in and day out student teaching goes on. Many methods and devices are used to aid the instruction. Shown here are the phonograph, chalkboard, and textbook.

Senior Day — Breakfast in bed, dinner served by the freshmen, and a party in the evening all signify the day to which students look forward.

the red and white

Our potpourri of humanity, the class of nineteen hundred and fifty-three, is complex and unique society. We have our aristocracy that is composed of our leaders: we, who joy at the opportunity to plan, proposition, compromise, and to gain in the interest of our society; we who crave the opportunity to burn the oil in the early hours for discussion and contemplative reflection before making a decision; we, who may be called chefs for we take various ingredients and create progress.

Our society has a proletariat: we, who are among the most positive in our society because we certify every idea and proposition proffered, by our workers and coordinators — this we know, causes much anguish among those people but lo and behold it produces no labor for ourselves. We hold forth that our society owes us everything. Although we sometimes contribute our talents there must be a guarantee of public acclamation.

But to counteract this reaction our society, our prototypes, contains a level designated as bourgeoisie. We of this level, have banded together: a mixture of the extremes. We are the unsung heroes. We do that nerve racking, back breaking toil of research and sectional construction that produces the life and vitality of our estimable personality. This toil having been done by us with no regard for personal sacrifice or recognition, only with a regard for how much will our labors enhance our society. And this is progress.

We have now passed our boundaries and find ourselves in a new society, where we plan, guide and develop young minds and bodies to cope with the personality of this new societies' tomorrow.
